Re: Reference

Rolls Right has been our carrier for 15 years.

We utilize the following divisions of their fleet:

1Ton 5Ton Trailer Railgate

I would describe their level of service as:

Exceptional – they go above and beyond to service.

We are particularly pleased with:

The quick response and eagerness to assist. They do what they can to get the job done – even if it isn't in their best interests. They have grown with us and done what they can to accommodate that growth.

The communication lines are:

Always open – they communicate well with each other and are quick to respond.

Other comments:

Rolls Right has taken it upon themselves to service OUR customers to a level that is unexpected nationwide at [REDACTED].

[REDACTED] is Rolls Right's customer – but they treat OUR customers as their own.

We hold them as a very valued carrier to our organization.
